

SOUND + SCIENCE

Learn the *science of sound* and the *sound of science* at our exciting summer program! Sound+Science is a free music making and learning program open to all NYC public high school students.

We'll guide you in creating your own projects, from songs and performances to vibe-coded music software, covering topics like digital recording, beat-making, Hip-Hop + AI, sound waves + synths, Python coding and more.

This summer's session runs July 6 to September 2, Mondays and Wednesdays from 4-6 pm at One Rivington Street, LES, Manhattan.
